App Profile

The best way to find new apps in Google Play (Android market).

Make the Android market usable, and find your next favorite app, live wallpaper or widget:

- App recommendations
- New and hot apps of the day
- Find top Android apps with a price drop
- Share your best apps (eg twitter/facebook)
- Tracks market update: notifies of updates available
- Fast uninstaller
- Browse "my apps" on www.appbrain.com and install apps with a sync instead of barcode scanner
- Keep your list of installed apps as a backup on AppBrain.com

AppBrain is the best way to discover top Android apps in the Android market and to manage your apps. The recommended apps helper provides recommendations based on what you already use. We also have recommended games. It does not work with the Amazon app store.

The manage apps is like a killer file explorer / task manager for your already installed apps:

- Start app, Quick uninstaller, share to Facebook
- Fast sync widget to access AppBrain from the desktop and backup your apps to the cloud
- app2sd functionality to move apps to sd (app 2 sd)
- Find market update: notifies you of any updates available

Discover cool apps and top games in the Android market:

- sort by hot apps today, hot apps this week, highest rated apps, price drops etc
- Filter apps by free apps, paid apps, price reduced apps, app2sd enabled apps, new apps
- Fast search over the entire Android market
- Unlike appplanet or black market, these are only legal apps.

AppBrain is the best app market and app discovery tool for Android apps from the Android Market. It allows you to easily find the best apps in the Market, the free apps and downloads, the price drops, live wallpaper, widgets and much more.

About This Report

This report was generated by AppBrain on 28 August 2026. Install and rating figures are AppBrain estimates derived from public Google Play data and may differ from the developer's internal analytics. Store rankings reflect Google Play category charts at the time of generation. Keyword positions are measured from live Google Play search results on the United States Play Store and show where the app appears among all results for each query.
